SUMMARY

Motivated software developer with hands-on experience in full-stack web development, including real-world API integration and responsive UI design. Skilled in both frontend and backend technologies and open to relocation for impactful opportunities.

PROFESSIONAL EXPERIENCE

❖ **Software Developer Trainee - Softpro India**   *(Feb 2024 - May 2024)*
  Developed and maintained 15+ responsive web pages using HTML, CSS, and JavaScript. Built a CRM system with Python and Django to manage data for 1,000+ customers.

PROJECTS

❖ **PropSys** - Property Management System - *TypeScript, Angular*
  Built a full-stack property management system using Angular 18 with real API integration, featuring property listings, booking functionality, and admin tools for managing properties and sites.

❖ **Holistic** - Digital Health Ecosystem - *TypeScript, Angular*
  Developed a digital health ecosystem integrating services like health assessments, lifestyle tracking, medical consultations, and personalized wellness plans using Angular and TypeScript.

❖ **E-Petopia** - Pet Shop Portal - *JavaScript, Python Django*
  Collaborated on an online pet shop platform using JavaScript and Django. Implemented product browsing, cart management, and integrated payment gateway.

TECHNICAL SKILLS

❖ **Languages & Core Technologies -** TypeScript, JavaScript, HTML5, CSS3.
❖ **Frontend Development -** Angular, Bootstrap, Tailwind CSS.
❖ **Backend Development -** Node.js, Express.js.
❖ **Databases -** MySQL (SQL), MongoDB (NOSQL).
❖ **Tools & Utilities -** Git, GitHub, Postman, VS Code.
❖ **Programming Concepts -** Object-Oriented Programming (OOP), REST APIs, MVC Architecture.

EDUCATION

❖ Master of Computer Application
  Integral University, Lucknow - CGPA: 8.6 (2022 - 2024)
❖ Bachelor of Computer Application
  Integral University, Lucknow - CGPA: 8.6 (2019 - 2022)

❖ XII (ISC)
  Christ Church College, Lucknow - 2019
❖ X (ICSE)
  Christ Church College, Lucknow - 2017

EXTRA-CURRICULAR ACTIVITIES

❖ Participated in coding competitions such as *Byte Battle Escape* (Integral University).
❖ Continuously learning through platforms like Coursera, Udemy, and YouTube.
❖ Volunteered as a peer mentor in coding workshops for junior students.
